

# BC2-EM08-UP8X Capacitive Sensor

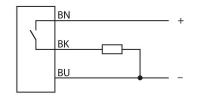

| Type                                      | BC2-EM08-UP8X                   |
|---|---------------------------------|
| ID  | 100021821                       |
| Rated switching distance (flush)          | 2 mm                            |
| Hysteresis                                | 1020 %                          |
| Ambient temperature                       | -25+70 °C                       |
| Medium temperature                        | -25+70 °C                       |
| Electrical data                           |                                 |
| Operating voltage U₅                      | 1830 VDC                        |
| DC rated operating current I <sub>e</sub> | ≤ 100 mA                        |
| No-load current                           | ≤ 15 mA                         |
| Switching frequency                       | 0.1 kHz                         |
| Isolation test voltage                    | 0.5 kV                          |
| Number of digital outputs                 | 1                               |
| Output function                           | 3-wire, NO/NC (NO pre-set), PNP |
| Short-circuit protection                  | yes                             |
| Voltage drop at I <sub>e</sub>            | ≤ 2.4 V                         |
| Wire break/reverse polarity protection    | yes/Complete                    |
| Insulation class                          | Ш                               |
| Tests/approvals                           |                                 |
| Mechanical data                           |                                 |
| Design                                    | Threaded barrel, M8 x 1         |
| Dimensions                                | 51.5 mm                         |
| Housing material                          | Stainless steel                 |
| Active area material                      | PBT, yellow                     |
| Electrical connection                     | Cable                           |
| Cable quality                             | Ø 3.4 mm, PUR, 2 m              |
| Core cross-section                        | 3 x 0.14 mm²                    |

#### **Features**

- ■M8 × 1 threaded barrel
- Stainless steel housing, probe made of PBT
- Fine adjustment via potentiometer
- ■DC 3-wire, 18...30 VDC
- Adjustable NC/NO contact
- Factory-set NO contact
- ■3-pin cable connection, open strands

## Wiring diagram

#### Functional principle

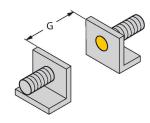

Capacitive proximity switches are designed for non-contact and wear-free detection of electrically conductive as well as nonconductive metal objects.

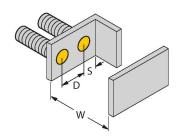

### Technical data

| Protection class    | IP67                                       |
|---------------------|--|
| MTTF                | 1080 years acc. to SN 29500 (Ed. 99) 40 °C |
| Power-on indication | Green                                      |
| Switching state     | LED, Yellow                                |

# Mounting instructions

#### Product features

| Distance D             | 16 mm  |
|------------------------|--------|
| Distance W             | 8 mm   |
| Distance S             | 12 mm  |
| Distance G             | 16 mm  |
| Diameter active area B | Ø 8 mm |

The given minimum distances have been checked against the standard switching distance.

Should the sensitivity of the sensors be changed via potentiometer, the data sheet specifications no longer apply.

### LED status indicators

| LED                | Meaning                                |
|--------------------|--|
| Yellow             | Operating mode NO: Object detected     |
|                    | Operating mode NC: Object not detected |
| Flashes yellow 1 × | Potentiometer counterclockwise:        |
|                    | Sensor at minimum switching distance   |
|                    | Potentiometer clockwise:               |
|                    | Sensor at maximum switching distance   |
| Flashes yellow 3 × | NO/NC switching successful             |

For a detailed description of the NO/NC switching, see Quick Start Guide BC2-EM08-Ux8X... (100034228.pdf)
